Distributed Systems

COMP90015 2019 Semester 1
Tutorial 06

Multi-Threading Architecture

Q1. What is a thread and life cycle of a thread?

Q2. Compare worker pool multi-threading architecture with the thread-per-request architecture?

RPC and Java RMI

Q3. Please explain Remote procedure call (RPC) and describe its key components.

Q4. Explain the steps involved in Java RMI to build a distributed system.

Demo Time!

Java RMI Demo
